## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 1 and 7 are objected to because of the following informalities:

Claim 1, line 6, "the" should be – a -;

Claim 17, line 5, "the" should be –a- . Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re Claim 1, line 8, it is unclear what is meant by "a kind of the ATM". "a kind of the ATM" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

In line 15 –16 of Claim 1 also recites "a kind of the ATM". It is unclear whether the physical configuration of the transmission network interface is related any ATM configuration. (Same reasoning for Claims 4, 5, 7, 10, and 13)

As a suggestion, for clarity, the claims 1 and 7 should recite, "...if so, the transmission network interface is set to be logically MPOA operable;" to indicate that the physical configuration of the target or next hop is that of it's own node.

***Allowable Subject Matter***

4. Claims 1-15 are would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

As recited in Claims 1 and 7, prior art fails to the means for judgment that determines whether a physical configuration of a transmission network interface of the target or next hop is that of its own node.
